Our Daily Bread (A prayer for throughout Creation Time 2011)

O God as we eat our daily bread a serving from field's fare, help us in breaking daily bread to celebrate and share.

Creator God, we are blessed with the gifts of the land and the treasures of the sea. We thank you for earth's blessings and for the creatures of field and farm who feed us with their lives. We join in praise of the Divine Love that holds all in cosmic communion.

All : Thank you God our Creator

Creator God, there is a renewed interest in "grow it yourself "and allotments. May these movements continue to develop and expand.

All : Thank you God our Creator

Mysterious Creator, when we share food together we are in communion with the whole of your creation in all its generosity, interdependence and fragility. Help us to eat with the mindfulness that will lead us to a sacramental understanding of life.

O Lord, hear us we pray,

All: O Lord, bless us, and give us a share in Your wisdom. Amen.

God, You give us this planet filled with your gifts for our daily bread. Help us to reverence all of your creation, respecting the rights of all species and the integrity of the elements. Teach us to realize in our hearts as well as in our minds that we praise You when we use Your gifts as You meant them to be used. May we unite with all suffering creation in the struggle for liberation from what seeks to destroy. Grant this that all creation may live in justice and peace. **Amen**

O God, as the reality of what we have done to the earth and seas, which provide us with our daily bread, dawns on us, grant us the grace to do what is necessary to cooperate with your redeeming care of the cosmos. Give us the generosity and the courage to do without those things that destroy earth, air, water and all that sustains us. Bless us anew, that we may bless the earth with healing care, God – Creator, Word and Holy Spirit. **Amen**
